

The Brivo Onair® unified security platform combines access control and video surveillance to put you in control of your facilities from anywhere, with any device.

Brivo Onair is ideal for customers looking to:

- Automate access following latest cyber secure practices
- Monitor building use
- Manage multiple doors and locations
- Restrict access to specific users at specific times
- Access doors, garages and elevators from your mobile device
- Avoid re-keying or re-issuing replacement credentials
- Issue and revoke credentials instantly
- Select from proprietary or open standard solutions
- Select the credential, reader and lock brands that meet your needs
